

# TOWN OF BUCKHOLTS

P.O. Box 117 Buckholts Milam County, Texas 76518  
254-593-3111

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

**CITY OF BUCKHOLTS** has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During (June 1, 2021 – September 30, 2021) We did not monitor or test or did not complete all monitoring or testing for Lead/Copper and therefore cannot be sure of the quality of your drinking water during that time.*

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for lead/copper, how many samples we are supposed to take, how, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
Lead/Copper	Every 3 years	0	June 2021 – September 2021	June 2022 – September 2022

What is being done?

We are working to correct the problem. For more information, please contact Bill Lawson at [lawson.wws@gmail.com](mailto:lawson.wws@gmail.com).

Corrective Actions. We will be taking the proper amount of water samples in between June 2022 and September 2022. These dates are the dates to be put back in compliance with TCEQ. We will take 10 samples to the lab and when we get the results, TCEQ will be notified.

This notice is being sent to you by the City of Buckholts. Public Water System # 1660007
